What We May Expect Between This Time and To-morrow Evening.

U. S. WEATHER BUREAU, WASHINGTON, D. C., May 21, 1892, special to THE PUBLIC LEDGER.

Light showers.

The above forecasts are made for a period of thirty-six hours, ending at 8 o'clock to-morrow evening.

THE FIRST FLY OF SUMMER.

The first fly of summer comes buzzing alone. All the other insects are still in their eggs. Thus gently I scatter them. And soon in the quiet pan they fly it is found.

So soon may they follow. The brood is now complete. I'll treat them to powder, when once they fall to stop them. And vicious they row, I'll treat them to powder. Will lay them all low.

Personal Mention.

If you have friends visiting you, or if you are going away on a visit, please drop us a note to effect.

Frank Ellison who has been visiting Miss Sallie McDaniel has returned home.

E. F. Burgess of Tilton made a flying trip to Mayville yesterday. He's all O. K.

THE MAYSVILLE SANITARIUM.

Satisfactory Progress Made by the Patients.—Care Rapid and Permanent.

The initial week of the existence of the Maysville Sanitarium Company has just been completed. Without special effort

sociously loses his appetite for whisky as he once gained it.

There are now thirteen patients undergoing treatment. The habit has already been broken in all cases after four days' stay. In one instance has a patient felt any bad effect; but in the shortest time regains his former sense of well-being and added riddance of his habit.

Fleming and Bracken have both contributed patients to the Sanitarium, and from the many letters of inquiry coming in, the present month will find many from a distance.

Strict privacy is regarded, and if a patient so desires no one will be the wiser of his having taken treatment.

The Company has arranged to have a barrel of the famous Blue Lick Water fresh

and little advertising on the part of the company. The institution is now an assured fact for all time to come, since its first step was upon a paying basis. The greatest satisfaction and good is felt by those under treatment, and friends of such parties are enthusiastic in the praise of the rapid progress made. No patient can voluntarily resist the influence of the treatment, and as uncon-

sciously, to be used in the treatment of the alcoholic habit.

They cure the *Liquor, Opium and Tobacco Habits* at the *Myserville Sanitarium*. The medical staff is composed of Dr. T. E. Pickett, J. A. Reed and C. C. Owens.

IN HOC SIGNA VINCIS.

EX-GOVERNOR CAMPBELL of Ohio says:
"A fighting Democracy always wins."
It didn't seem to do it in 1861-62.

Wrote a bill adopted which provides

penalties for a certain class of ex-

Confederates and bills pending to admit

them to the regular army it planned

that the present Democratic House is doing faithfully the work of its masters,

THE trend of taste on the part of

statesmen in Washington in the last

few weeks indicates that Presidential

candidates must guard against their

rivals running in races as a counter

attraction in the very crisis of a con-

vention. Apparently a horse race would

empty a convention hall of delegates,

No charge to Hill and Gorham for the

suggestion.

The Democratic side burst into a

roar of laughter when MEREDITH of

Virginia taunted DAN WAUGH, the

Union Veteran Congressman, with making a "bully run" at Bull Run,

Whether DAN WAUGH was at Bull Run

or not, it is certain that he fought on

many fields where Union men won.

That's the reason why Democrats like

MEREDITH don't like him.

REPRESENTATIVE HARTER of Ohio, who also boldly says "I am a Democ-

rat," has other fears than free silver and a Protective Tariff. Listen to him:

"The great danger to the Democratic party is that she will marry herself to a few individuals, many of them like Mr. Hill, utterly worthless to be con-

sorted with, while she will divorce herself from the eternal principles of liberty and political equality and equal rights for all men with special privi-

leges for none."

It will not be necessary for the

Chicago Convention to frame a platform.

The Democratic House is anticipating it and is constructing the platform on

which the party will have to go to the

people. Free silver, bogus economies,

assaults upon education, upon the navy,

upon the work of Indian civilization and

upon the National defense and credit,

profuse extravagance in rivers and

bahors and a pin-sticking Tariff policy

are some of its planks.

One of the prophecies of the advocates of the McKinley bill was that it would induce foreign manufacturers to come

to this country and establish plants here in order to compete with Americans on their own ground.

This result has already come to pass, for one of the largest Welsh tin plate manufacturers, W. H. EDWARDS, has decided to close his tin-house, or finishing department at Cardiff and to begin at once the erection of ten mills in this country. These mills will be followed by others as fast as the business may require. Mr. EDWARDS will import his black steel plates from his factories at Swansea for the time being. Eventually he intends to remove his entire interests here.

The location of the mills has not yet been decided upon. Mr. EDWARDS will arrive here by the Teutonic and, after consulting with his manager will choose

THE Democrats who are circulating HENRY GEORGE literature should steer clear of Chicago. The police of that enlightened community have a particular antipathy to red flag communists.

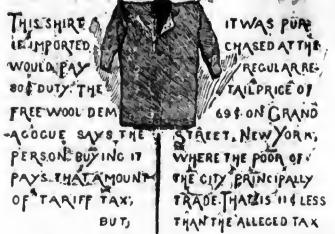

For once this session the Democrats have displayed some sense. Knowing that the binding-twine bill was a sham which could not stand discussion, they suppressed all debate and crowded it through under suspension of the rules.

THE Democratic free binding-twine bill was too great a sham and swindle even for the Tariff-reform stomach of *The New York Times*. That mangump journal usually hauls with joy each and every reduction of Protective duties, but the so-called free binding-twine bill was such a transparent piece of electioneering humbug that it had to draw the line on it. The bill represented stupidity that was not to be appalled even in the name of Tariff Reform. *The Times* was compelled to say: "The removal of the insignificant duty on binding-twine could do no service to the Western farmers, whom the majority of the members are supposed to have in mind. That duty is only seven-tenths of a cent per pound. The removal of it

The Tariff Not a Tax.

THE POOR MAN'S SHIRT.

(FLANNEL—ALL WOOL.)

The garment pictured above is made of soft, clean wool, good enough, warm enough and comfortable enough for any one. Probably nowhere else on earth can so good an article be bought for less money. If the Free-Trader doubts, let him come in and examine the shirt and the bill of the merchant who sold it. They are open to inspection in this office.—From AMERICAN ECONOMIST.

It is for the works. Mr. EDWARDS is connected with three tin plate firms in Wales, representing an invested capital of \$1,250,000, which will undoubtedly soon be diverted towards this country in whole or in part. His father's firm, that of D. E. EDWARDS & Co., was selected by the British Association at the time of their last visit to Wales as the representative house in the trade. DANIEL EDWARDS was the first man to employ steel in the manufacture of plates. But that time was over. He has always been one of the chief exporters of the trade.

A representative of W. H. EDWARDS said: "We shall, of course, use the DANIEL EDWARDS patent timing process, which has already been put in operation in the United States at Conneaut, O., and in Brooklyn by SOMERS Bros. The works of W. H. EDWARDS and those of his father each employ about 800 men and turn out fully 20,000 boxes a month each. Our Welsh iron makes a steel of a remarkably ductile quality, and until rolling mills are fully established in this country, it will pay us to import our black plates. Ultimately we shall have to import the ore to this country, unless we find that we can arrive at the same result by a mixture of American iron."

The so-called free binding-twine bill was such a fraud and sham that the Democrats were afraid to have it discussed in the House. That is the reason why they suppressed debate and put it through under the suspension of the rules.

SPEAKING of a medal to be given Professor SWIFT of Rochester, N. Y., "in grateful recognition of the service which he rendered science in discovering a new comet," is he the man who discovered the tailless comet of '92, to wit, D. B. HILL?

THE New York *Mail and Express* says: "The Tariff Riddle" should be freely circulated in shops and factories, in mines and fields, wherever there is a workingman who does not know that the Free-traders are plotting to under-

mine not perceptibly reduce the price binding-twine."

UNFAIRLY TREATED.

The Left Hand Importer is Not Properly Treated.

This curious little extract, which reads somewhat like a riddle, comes from a letter written by Dr. Franklin to a friend in 1802. It is a great diversity of opinion. He is arguing the cause of the left hand, and contends that she is entitled to equal consideration with the right. That she ought to be equally instructed, in order that if anything should happen to her, she might be capable of finding useful employment on the right would be deprived of the assistance of the left.

"There are two sisters of us, and the two eyes of man do not resemble nor are capable of seeing on better terms than the two hands of man do not resemble, but for the partiality of our parents, who make the most injurious distinctions between us. From my infancy I have been led to consider my sister as a being of more elevated rank, and of more importance than myself, and I was suffered to grow up without the least instruction. She had masters to teach her writing, drawing and other accomplishments; but if by chance I touched a pencil, a pen, or a needle, I was bitterly rebuked, and more than once I was severely flogged for it. I was taught to speak and wanting a graceful manner. It is true my sister associated me with her upon some occasions, but she always made a point of taking the lead, calling upon me only from necessity, or to give me a sharp rebuke."

In spite of Dr. Franklin's argument, the left hand has never yet taken equal place with the right, and, for many reasons, it seems hardly probable that she ever will.

A resident of Titusville, Pa., committed suicide a few days ago from a melancholy conviction that he was his own grandfather. Here is the singular history of the case. The man who had a grown-up daughter. My father visited our houses very often, fell in love with my stepdaughter and married her. So my father became my son-in-law, and my stepdaughter my mother. This was about the time my father had a son; he was my father's brother-in-law and my uncle, for he was the brother of my stepmother. My father's wife—that is, my stepdaughter—had also a son, the boy, now the grandfather of my grandchild, for he was the son of my daughter. She was my mother's mother. She was my wife's husband and grandchild at the same time. And as the husband of a person's grandmother is his grandfather, I was my own grandfather.

to this country and establish plants here in order to compete with Americans on their own ground.

This result has already come to pass, for one of the largest Welsh tin plate manufacturers, W. H. EDWARDS, has decided to close his tin-house, or finishing department at Cardiff and to begin at once the erection of ten mills in this country. These mills will be followed by others as fast as the business may require. Mr. EDWARDS will import his black steel plates from his factories at Swansea for the time being. Eventually he intends to remove his entire interests here.

The location of the mills has not yet been decided upon. Mr. EDWARDS will arrive here by the Teutonic and, after consulting with his manager will choose

to this country and establish plants here in order to compete with Americans on their own ground.

Henry TENSET was drowned off the towboat *Bauer* below Memphis. He lived at Louisville, and leaves a family.

The only man that has been arrested and fined for drunkenness in the Mt. Olivet Police Court during the past year was from Mason county, says *The Robertson Advance*. In another part of the same paper we find the following:

"While returning home from Mt. Olivet yesterday, Mr. Martin accidentally shot his brother William in the head, inflicting a severe scalp wound. Too much 'boozey'."

Perhaps they don't find their own people.

City Council.

The adjourned meeting of the City Council was held in the Council Chamber last evening, President Cox in the chair. Eleven members were present. The meeting was to hear complaints from taxpayers in regard to the action of the Board of Equalization. No complaints being made the report of the Board was adopted and made a part of the Assessors book, and the whole received as the record for this year.

There will be no preaching at the Central Presbyterian Church to-morrow morning, but Rev. Martin Luther will fit the pulpit in the evening. Sunday-school and Y. P. C. E. as usual.

There are 150,600 miles of railroad in operation in the United States giving employment to over a million persons. The New York elevated carries more people than any other railway in the world, carrying an average of 300,000 per day.

The lateness of our issue yesterday could not be avoided. Some of the material arrived two hours late and we could not possibly get the paper out in time to catch all the omnibuses. We ask the pardon of those who were disappointed.

A few weeks ago the city of Augusta was made \$500 richer by two of our saloon keepers, each paying to the treasurer, \$250. They had been granted licenses at \$250 each, but thinking that not enough, turned over to the town \$500 more.—*Augusta Chronicle*.

It has been definitely decided that Governor McKinley of Ohio will deliver the formal opening address at the dedication of the big convention hall at Minneapolis, on the night before the opening of the National Convention. Chauncy M. Popow, or some other agent, will have delivered an address.

DANVILLE is a very enthusiastic baseball town.

The New York Stock Exchange is a hundred years old.

The Kentucky Homeopathic Society will meet in Danville next year on the third Tuesday in May.

SURELY the privilege of rolling their own cigarettes will be allowed the "flems," says *The Danville Advocate*.

C. S. PEARCE, son of C. B. Pearce, and family are now residents of Washington City. Mr. Pearce is Secretary of the House Committee on Territories.

DR. LESLIE E. KERLEY has been sued for \$1,000 by the administrator of one Charles Stockell of New York, who died shortly after taking the gold cure.
